DWA Essay

“ $\frac{1}{3}$ of us millennials say they don't have enough time in their week to exercise.” There are many teenagers than are attached to a new game called “pokemon go” that was attached to a new game called “pokemon go” that was recently launched. This game was meant to improve exercise to society. All the informations was found in document B from forbes.com, Document C- health benefits to catching ‘em all, and document E: The psychological Pros and cons of pokemon go. Teenagers should not be playing pokemon go because it can lead you to unsafe places, can cause personal information to spread and can cause negative effects to society.

To start off with when looking at the pokemon map you can see blocks of green with no pictures, what you can't see is the danger behind those areas. Based on document A “the placements of pokestops and gyms raise questions about players could get hurt searching unsafe areas-a dark alley or along a river, for example-particularly while staring at a smartphone screen. This can lead to accidents and unfortunate events. To add to that “The games” could be leading people into areas where they don't belong ,” such as a constructing sites or shuttered storefronts, and Don Boyes an associate professor of geography and planning at the university of toronto.” These areas can be highly restricted that once transposed can jail time.

Continuing, pokemon go can cause personal information to spread to other people. Considering the evidence on document B “pokemon go uses your phone's location, your real name and account information. { "My score for this essay was a 3 and a 3 " }
